

SentinelAI Enterprise Security Report

Report: Latest Upload Report

Generated: 2026-07-03 06:12:31 UTC

Executive Summary

The current security posture reflects a perfect score of 100, indicating an overall low risk environment. One low-severity finding was identified, with no critical, high, or medium risks present. Specifically, the lone identified risk is a low-severity finding related to one sensitive S3 management action performed by the identity ``arn:aws:iam::111122223333:user/security-admin``. There are zero critical, high, or medium risk findings, and zero risks were resolved during this period. Identity analysis shows a total of one identity, which is an IAM user. There are zero roles and zero service accounts. No dormant or privileged identities were identified. The security graph analysis encompassed three nodes and two relationships. Significantly, zero potential attack paths were identified within the environment. Information regarding the most connected identity is not available.

Overall Posture

Security Score: 100/100
Overall Risk: LOW

Risk Breakdown

Critical	High	Medium	Low	Resolved
0	0	0	1	0

Top Risk Findings
